A personalised visual story for

My First Day of Grade 1

Helping children become the brave main character in their story

ABOUT THIS SAMPLE

This is one of our ready-made samples, so you can see how a Lionmain story reads.
In the app, you make the same kind of story with your own child — their photo (or a description), whatever's coming up, and the real place and people they'll have with them.

On Monday morning, I start Grade 1.

The school bell makes a clear sound.

Mrs Chen waits at the classroom door.

Mrs Chen shows me the bag hooks.

The classroom is bright and very colorful.

Some children feel nervous in new places.

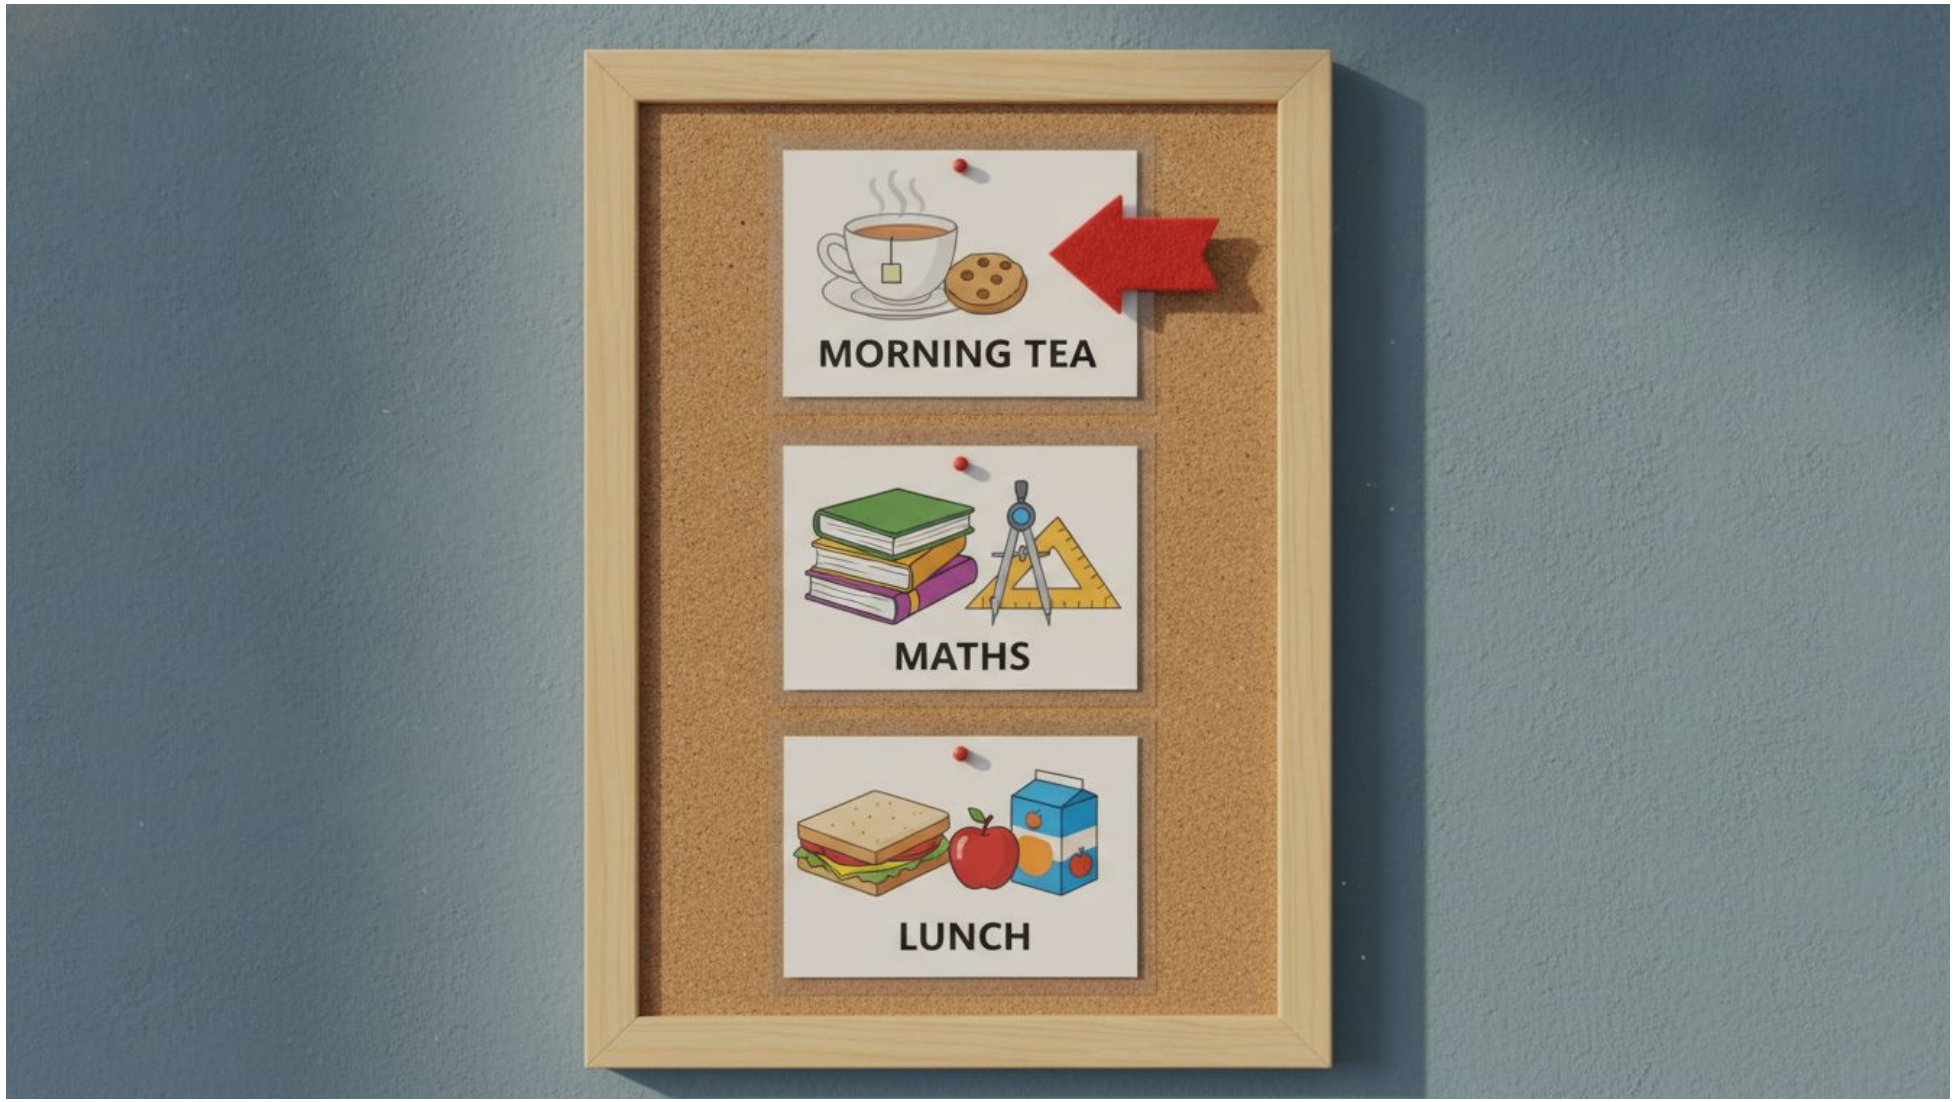

Mrs Chen knows that students like help.

I can take a slow breath if I want.

My colorful fidget toy is in my pocket.

The visual schedule shows the day's plan.

I visit the quiet space for breaks.

Mum waits for me after school ends.

I go home with Mum after school.
